

The Eracast RT Range

COLD CASTABLE POLYURETHANES
Ideal for Concrete Moulding

A relative newcomer to **Era Polymers** cold castable polyurethanes are the **Eracast RT** range of products.

Eracast RT

The **Eracast RT** range offer:

• Medium performance polyurethanes	• Processing at both room and elevated temperatures
• An Ideal range for outdoor use	• Outstanding toughness
• Products free from MOCA	• High elongation
• Products free from flammable Solvents	• Good resistance to crazing & cracking
• Good flexibility	• Convenient mix ratios
• Good abrasion resistance	• Low viscosity which allows for easy processing

Applications include but are not restricted to:

✓ Concrete Moulds	✓ Gaskets
✓ Concrete Stamp Pads	✓ General Moulds
✓ Shock & Sound Dampening Pads	✓ Electrical Insulation
✓ Washers	

Even intricate designs with complex shapes are easily achieved using **Era Polymers, Eracast RT** range of cold castable.

For more information please contact **Era Polymers** on **+61 (0) 2 9666 3788** and one of our representatives will be able to assist you.
